You don't often get email from ksantana@diamondbarca.gov. [Learn why this is important](#)

EXTERNAL EMAIL

Good afternoon,

My name is Kristina Santana and I am the City Clerk for the City of Diamond Bar, California. I am emailing you today to express my concerns with your new ruling requiring City Council Members to file their Form 700's with the FPPC online system instead of our own online filing system. Our City has already entered into a five year contract with Netfile for online filing for Council Members and if this new rule goes into effect, it will be a big waste of the money we have to continue to pay, and a waste of all the time it took to get our 87200 filers trained to use our system. My next concern is that over the years, getting support from the FPPC has taken more and more time. With Netfile, if a filer has an issue that I cannot resolve, I can be on the phone with netfile and instantly get a resolution. With the FPPC support, I'm afraid it will take days to get issues resolved.

Thank you for taking my concerns into consideration.

Best Regards,

Kristina Santana, MPA, MMC | City Clerk
