Good morning,

I am writing to express my concern regarding the requirement for 87200 filers to file electronically using FPPC's e-filing system. We have an approved system through Netfile and I would like to request that our filers still be allowed to use this system to electronically file through a data transfer to the FPPC.

I recently moved to the Netfile service and provided training to our 87200 filers. Having to re-direct the filers to use another system in a short amount of time is going to cause a lot of confusion, frustration and and create a burden of extra time on the filer and staff.

Thank you for your consideration.
